School Nurses International
2017 Conference
July 24-28, 2017
San Francisco, California, USA

We are pleased to announce that things are moving forward to bring the 2017 School Nurses International Conference to San Francisco, California. Collaborating Partners include the California School Nurses Organization, San Francisco State University, and School Nurses International.

Please save the date and watch for important news through the 2017 [SNI Conference Website](#) as well as your local organizations.

The theme for this conference is “School Nurses Interacting within the Public Health Model to promote the Health of Children-Globally”.

Areas of interest include:

- Immigrant/Refugee Health—protecting and nurturing children;
- Communicable disease—trends and topics, treatments and traumas;
- Mental Health—Prevention and Intervention;
- Keeping our Children Safe—Global Challenges to Promote Safe Environments for the children of the world (Trafficking’ Media, Other challenges);
- School Health—the changing faces of school health programs;
- Policy development, data collection and change (Including Data sets and Transitioning children through childhood to adulthood).
